[Confidential] Enterprise - Bringing Your Business to Your Fingertips!

Worried about maintaining empowerment and engagement at the workplace?

[Confidential] is an enterprise level ERP solution that enhances collaboration and connectivity with the help of a web and mobile application. With a social media interface, [Confidential] Enterprise ensures you are always connected to your business whenever you want and wherever you are.

No need to worry about cross departmental interaction – [Confidential] keeps you connected and overcomes the barriers of distance and time for better productivity and even better profits.

With [Confidential] Enterprise you can get a centralized feed from all users in your company and send personal messages and feedback, view graphical insights and multimedia library and get one touch access to employee and team profiles. [Confidential] makes processes more transparent, giving you better control over project management and scheduling. Developed entirely with a user-friendly social technology, no additional training is needed for deployment which calls for better time management and employee satisfaction.

Shot	Visualization	VO
1.	Screen shows an SME level company boss sitting in his office. He is very worried about the productivity at his firm which is due to lack of communication and collaboration. He is looking outside his door where team members are not interacting with each other, the departments are too far away, etc.	Worried about maintaining empowerment and engagement at the workplace?
2.	He picks up his phone as it pings. The [Confidential] Enterprise app is shown in his phone. He taps on the logo and the main screen appears.	[Confidential] is an enterprise level ERP solution that enhances collaboration and connectivity with the help of a web and mobile application.
3.	Screen now shows various scenarios where the [Confidential] enterprise can be used. The boss is at a coffee shop while he checks his files. Another employee views progress on a project while he is on a date (sneak peeks into phone from behind the menu). Another employee is baking a cake at home when her desktop PC in the hallway pings with a message, she goes there and gets the task completed with the mixing bowl in her hand.	[Confidential] Enterprise ensures you are always connected to your business whenever you want and wherever you are
